

Dr Geoff Herbert (Treasurer)

I am an organic chemist by training, but I have been a keen wildlife photographer for many years, specialising particularly in birds and wild flowers. When I moved to Barnard Castle, a lot of the plants in Teesdale were new to me. To find out more and to assist my photography, I joined the Upper Teesdale Botany Group. I quickly learned what a special place Teesdale is and became fascinated with its flora. I have become very aware of the need to protect this unique habitat and its remarkable variety of plants.
